

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. The following is a table in which is shown the total expenditures and per capita costs for the years 1911, 1912, 1913, 1914, 1915, 1916 and 1917.

Year	Population	Amount Expended	Per Capita
1911	19,862	\$4,315,497 80	\$ 217 26
1912	20,112	3,816,443 90	189 76

1917	22,618	5,247,327 75	231 98

In the following table is set up, first, the Per Capita Cost of Conducting the Twenty State Institutions for the year 1911, the year previous to the time the Board of Administration took over the Public Institutions of the State. Against this is shown the Per Capita Cost for 1912, 1913, 1914, 1915, 1916 and 1917, and the difference in the Per Capita Cost each year of the Board's administration, as compared with the Per Capita Cost under Boards of Trustees.

The difference each year, multiplied by the average daily population during the year, shows the saving to the State. The saving in the six years under the administration of this Board being \$3,006,090.30. This saving is shown against a constantly rising market since 1911 for all classes of supplies, materials, etc.

The Ohio State Sanatorium

(233)

THE OHIO STATE SANATORIUM

The following classification represents the results of treatment arranged in accordance with the suggestions of the National Association for the study and Prevention of Tuberculosis and adopted by the American Sanatorium Association.

*DEFINITION OF TERMS

Incipient

Slight initial lesion in the form of infiltration, limited to the apex or a small part of one lobe.

No tuberculous complications. Slight or no constitutional symptoms (particularly including gastric or intestinal disturbances or rapid loss of weight.)

Slight or no elevation of temperature or acceleration of pulse at any time during the twenty-four hours, especially after rest.

Tubercle bacilli may be present or absent.

Moderately Advanced

No marked impairment of function, either local or constitutional. Localized consolidation, moderate in extent with little or no evidence of destruction of tissue.

Or desseminated fibroid deposits.

No serious complications.

Far Advanced

Marked impairment of function, local and constitutional.

Localized consolidation intense.

Serious complications.

CLASSIFICATION OF RESULTS

Unimproved

All essential symptoms and signs unabated or increased.

Improved

Constitutional symptoms lessened or entirely absent.

Physical signs improved or unchanged.

Cough and expectoration with bacilli usually present.

Quiescent

Absence of all constitutional symptoms.

Expectoration and bacilli may or may not be present.

Physical signs stationary or retrogressive.

*These definitions indicate the furthest extent of disease and the greatest severity of symptoms that a patient can present and still belong to the stage defined. All patients beyond the incipient stage fall under the moderated advanced stage unless the physical signs and symptoms exceed those of the moderately advanced stage, when they should be classified as advanced.

*Sanatorium**Apparently Arrested*

All constitutional symptoms and expectoration with bacilli absent for a period of three months; the physical signs to be those of a healed lesion.

Arrested

All constitutional symptoms and expectorations with bacilli absent for a period of six months; the physical signs to be those of a healed lesion.

Guard teachers employed.....	6
Inmate teachers employed	12
Inmate clerks, employed.....	2
Inmate janitors, employed	2
Total yearly attendance	1,302
Total number dismissed	880
Present attendance	422

Of those leaving school, about 95% have been recommended for remunerative jobs in the various departments of the institution; part of the remaining 5% were released and the remainder excused from further attendance by reason of some disability.

The law provides that each student is entitled to 30 days good time for each forty weeks acceptable school attendance, and of this number 86 have received such merit: 47 of whom received their first thirty days, 29, their second thirty days, 8, their third thirty days and 2 their fourth thirty days.

The number of classes and grades have remained the same as given in last report, changes in inmate teachers being necessary by reason of discharge or promotion.

The inmate teachers as a rule are enthusiastic in their work, which spirit is imparted in no small degree to the students. On the whole the interest manifested by both teachers and students is appreciably more than last year, owing largely to some changes made and methods introduced

and followed during that time and which I hope to improve as time and opportunity affords.

Under existing circumstances and conditions the progress of those in regular attendance has been all that could be expected.

Separate and apart from the regular school work, some of the more advanced students are doing some very creditable work in the scientific study of Agriculture through the Extension Service of Agricultural Department of the Ohio State University.

CATHOLIC CHAPLAIN'S REPORT

The average number of Catholics in the institution during the year was four hundred and ninety. Of this number four hundred and fifty were white and forty colored. The greatest number of Catholics in the institution at any one time was five hundred and twenty-three.

During the period covered by this report, Solemn High Mass was celebrated twice; High Mass three times and Low Mass fifty-one times.

The average attendance was four hundred and fifty. Eighty-five per cent of Catholic population are regular communicants.

The average number of weekly communicants was eighty-six with a grand total for the year of four thousand, four hundred and eighty-seven.

Total number of interviews granted during the year was two thousand and eighty.

A semi-weekly Class of Instruction was held throughout the year, the average attendance being thirty-five.

The Holy Name Society, connected with the chapel, held monthly meetings with an average attendance of seventy-five.

There are employed in this department four men, viz.: One Clerk, One Librarian, One Sacristan, One Runner.

CATHOLIC LIBRARY

During the year many books have been withdrawn from circulation because of their complete disintegration due to constant use. Three hundred and thirty-five new books have been added. There are at this time twenty-three hundred volumes in circulation. They consist of works on Religion, Science, History, Ethics, Biography, Travel and Fiction. There are also a large number of bound magazines. In the library will also be found a large number of books printed in foreign languages, viz: German, Hungarian, Polish, Slavish, Italian and French.

The average weekly circulation is two hundred and fifty volumes.

Only books of the highest standard have been allowed on the shelves of the Catholic Library. There has been a steadily increasing demand from the inmates for books.

The Catholic Library circulation is not confined to members of the Catholic congregation.
